

SwimClear[™]

QUAD-CLUSTER CARTRIDGE FILTERS

High performance. Operational convenience.

Hayward SwimClear reaches new horizons in cartridge filter technology. Industry leading hydraulic performance with maximum flow through all cartridge elements via a top-manifold configuration ensures superior water clarity, extended time between maintenance and maximum energy savings. A cluster of four reusable cartridge elements provides a choice of 325 or 525 square feet of heavy-duty, dirt holding capacity and extra long filter cycles. SwimClear filter tanks are made from a reinforced co-polymer material for the ultimate in strength, durability and long life - even for the toughest applications and environmental conditions. Discover crystal clear results.

SwimClear™ Filter: For Your Swimming Pool

Top Manifold

- provides industry's best energy saving hydraulic performance and utilises the entire cartridge surface area to maximise time between cleanings.

Heavy-Duty, Tamper-Proof, One-Piece Clamp

- securely fastens tank top and bottom together and allows quick access to all internal components without disturbing piping or connections.

High-Strength Filter Tank

- is made from durable, glass reinforced co-polymer to meet the demands of the toughest applications and environmental conditions, including in-floor cleaning systems.

Quad-Cluster Cartridge Elements

- provide 325 or 525 of filter area and extra dirt-holding capacity for long filter cycles. Precision-engineered core provides extra strength and superior flow.

Uniform Low-Profile Tank Base Design

- makes removal of cartridge elements fast and simple.

Model Number	Surface Area	Design Flow (lpm)	8 Hr Turnover (Litres)	Number of Cartridges	Cartridge Microns	Diameter (mm)	Height (mm)	Unit Wt. (kgs)	Unions (mm)
C3030C	325 ft² / 30.19 M²	462	221 760	4	13	585	877	27	50/65
C5030C	525 ft² / 48.77 M²	568	272 640	4	13	585	1182	36	50/65

*Up to 90% savings on energy costs compared to backwashing and rinsing heated, treated water on sand filtration systems.

Features of the Hayward® SwimClear™ quad-cluster cartridge filter:

- Injected moulded glass reinforced co-polymer for durability.
- Quad-Cluster cartridge element arrangement for versatility.
- 40mm integral drain for fast and easy full flow draining.
- Self-aligning top and bottom for quick and easy access.
- Quick high capacity rapid release manual air relief valve.
- Heavy-Duty tamper proof one-piece clamp allows quick access.
- Includes Hayward® Universal 50 / 65 mm unions.
- Hayward® Filtration with NSF commercial rating certification.

Combination pressure and cleaning cycle indicator gauge gives visual cues when cartridge elements need cleaning.

Noryl™ bulkhead and CPVC union fittings provide extra strength, heat resistance and provide maximum full flow hydraulic performance.

Features Hayward® four ounce reinforced polyester cartridges engineered for extra holding capacity and durability.

SwimClear™ is NSF rated, representing a commitment to quality, compliance and safety while ensuring product exceeds rigorous commercial certification process.
